Finest of the New and Standard Varieties

May we take this opportunity to thank our many thousands of customers all over the world for your nice business which you have sent to us these many years and do hope that we continue to please you in every way to make your hobby, the GLADIOLUS, a true delight for years to come.

We are sorry, and regret very much that we must issue a catalog without color this coming season (as you will note). Due to the steady increase in costs such as parcel post, packing supplies, labor and producing our selling material, compels us to cut down without any increase of prices for our bulbs. We do hope that you will find a selection of Gladiolus from our easy-to-order catalog.

Our shipping season starts the middle of December and continues until June 1st. Plant bulbs at intervals of ten days if you wish a long blooming season. Allow 80 to 85 days for bulbs to bloom from each planting.

ALL BULBS LISTED IN THIS CATALOG WILL BE SENT POSTPAID.

GLADIOLUS

Alphabetical Listing of the Large Flowering Varieties

ABU HASSAN Plain. (378-80)

A Holland introduction that still is reliable in this color. Like the old variety Pelegrina, a deep violet-blue, larger flowers. One of the attractive varieties.

Something Very Outstanding and Different

"Midget Flowering" Miniatures

The Tiny Flowering type is very popular, in fact, so much that many stocks are depleted so fast that we cannot catch up. They have come into their own the past four years, because they are so easy to arrange in the home alone or with other flowers, and in such effective ways. Ideal for bowls and vases. The trend is to use the Miniatures in make-up, excelling the large flowering. We will make a fine selection for you.
